NADA HANAFI AHMED

Alexandria, Egypt I +201129313098 I nada-h-ahmed@outlook.com I www.linkedin.com/in/nada-h-ahmed-0242a12b2 I https://github.com/ygsai

OBJECTIVE

A driven Computer and Communication Engineering student with a strong foundation in software development, machine learning, and web technologies. Seeking a software engineering position to apply my programming skills and problem-solving abilities to impactful tech projects.

EXPERIENCE

• **Junior Teaching Assistant in Computer Graphics** Alexandria University **Feb 2026 – Present**

Facilitated undergraduate learning in computer graphics and C++ by developing course materials and evaluating assignments.

• **Egypt Quantum Computing Community** Coordinator & Co- Director in IT & Web Development Unit **Dec 2025 – Present**

Led the web unit and engineered the frontend UI/UX for the primary platform, driving cross-functional collaboration.

• **Undergraduate Research Assistant** Alexandria University **Dec 2025 – Present**

ML research conducted on Symbolic Medoid-Based PCA for interval-valued data to optimize high-performance data science workflows.

• **Trainee at WE Telecom Egypt** Artificial Intelligence **July 2023 – Aug 2023**

Trained, evaluated, and optimized Machine Learning & Deep Learning models using frameworks like PyTorch, Scikit-learn, NumPy, & Pandas.

EDUCATION

Alexandria University

A degree of Bachelor of Science from the Department of Computer and Communication Engineering Program.

• Graduation Date: July 2026.

• GPA 3.81

PROJECTS

• **LughaCap AI-POWERED MEETING ASSISTANT PLATFORM GRADUATION PROJECT**

Developed the frontend and a custom Chrome extension to visualize post-processed, LLM-generated meeting transcriptions, ASL translations, and task summaries in English and Arabic.

• **EgQCC: Egyptian Quantum Computing Community**

Engineered the frontend and UI/UX for the community's primary web platform using Next.js, Tailwind CSS and TypeScript. Delivering a modern, responsive interface to manage and promote quantum computing events and news globally.

• **YUGOSLAVIA FOR HANDMADE ACCESSORIES AND CRAFTS SYSTEM**

Developed a full-stack e-commerce platform for a handmade brand, integrating an interactive HTML/CSS/JavaScript frontend with a PHP and SQL database backend.

• **LedgerOS: Personal Finance Dashboard**

A personal finance web application built with Next.js, Supabase, and Tailwind CSS to securely track transactions and savings goals.

• **CPU SCHEDULING VISUALIZATION**

Developed a dynamic C++ and OpenGL visualization to simulate the execution of OS scheduling algorithms (FCFS, RR, SPN, SRT, HRRN, FB).

• **CAR RENTAL SYSTEM**

A full-stack reservation website, a responsive HTML/CSS and Js frontend with a PHP and SQL backend to manage inventory and user bookings.

• **CHESS GAME**

Developed an interactive Chess game using Java and a game engine, applying OOP and design patterns to build a scalable & responsive GUI.

• **RELIABLE HTTP OVER UDP**

Developed a Python-based networking protocol that implements TCP reliability features over UDP to ensure loss-free HTTP data transmission.

• **CIRCUS OF PLATES GAME**

Built an interactive, three-level Java game that leverages OOP design patterns to seamlessly combine graphical user interfaces and audio.

• **BLOCK CIPHERS SCHEMES WITH IMAGES**

Implemented core cryptographic block cipher modes (ECB, CBC, OFB, CTR) in Python to encrypt images and illustrate security vulnerabilities.

• **INVENTORY SYSTEM**

A full management system for managers and employees using java that implements GUI & OOP principles.

COURSES

• **Web Development Bootcamp** by Dr. Angela Yu **Oct 2026 – Present**

• **Quantum Security and Quantum Machine Learning Tracks** EgQCC. **Feb 2026 – March 2026**

• **Applications of Artificial Intelligence** the British University in Egypt. **Feb 2026**

• **Python Language Levels I – II** Integrated Training & Business Solutions of Egypt. **Aug 2023 – Sept 2023**

TECHNICAL SKILLS

• **Knowledgeable of Design Patterns, OOP, Database, SQL, Data Structures & Algorithms, UML, Machine Learning, Computer Networks, Optimization Techniques, Technical Writing, Computer Security, Distributed Systems and Quantum Computing Basics.**

• **C, C++, Java, JavaScript, Python, HTML, CSS, PHP, OpenGL, Next.js, TypeScript, Tailwind CSS, Supabase and Bash Script.**

• **Microsoft office programs (Azure, Word, Excel, Power Point, Clip Champ).**

• **Knowledgeable of Git, GitHub, AutoCAD, Proteus, Figma, Blender and Multisim.**

EXTRA CURRICULAR

• **Internal Core Team Leading Member** Egypt Quantum Computing Community & iQafé **April 2026 – Present**

• **Organizer of Alexandria Quantum Mini Hackathon** iQafé & Bibliotheca Alexandrina **May 2026**

• **Speaker Committee Volunteer** Medical examination and Application organization for freshmen. **Sept 2025**

• **Project and Planning Manager** SMU organization **Oct 2021 – Feb 2022**

SKILLS

• **Communication, Time management, Leading, Analysis, Planning, Teamwork skills.**

• **Knowledgeable of Graphic Design and Montage, Photoshop, Illustrator, Digital arts and Architecture Drawing.**

LANGUAGES

• **Arabic:** Native • **English:** Fluent • **Chinese:** HSK 1 • **French:** A1

HONORS

• **AI Tools and Prompt Engineering** Engineers Syndicate. **Dec 2025**

• **100 Years of Quantum Conference** Scientific Arab Forum. **Dec 2025**

• **Digital Safety and Data Protection** GMAI Online Education. **Dec 2025**
